Dear Mavericks,

Mavericks began with the idea of leveraging connections to share trusted information and focus on solutions for our peculiar moment in history. We listen to your feedback as we plot our way forward…

The immediate need is for both the group and individuals to get down to brass-tacks on adopting a complete, secure tech stack. We all use electronic communication devices and networks – and we (almost) all need better options.

So, we are preparing several Knowledge Series webinars to help you.

Our first topic regarding decentralized/secure tech will be a discussion led by Adam Cleary on how to create and manage a DAO (potentially implementing Adam's advice for Mavericks Project).

Adam's presentation will take place on Thursday, November 16th at 3 pm Eastern Time (US).

Then we will move on to cover privacy tools/technology for individuals. That will include Unplugged/de-googled phones… offshore servers… and a complete cancel-proof tech stack.

If you can help the group "Go Dark" by getting onto trusted tech, please consider reaching out to me (Tain) or Andrew if you wouldn't mind sharing your expertise.

If there's a specific topic you want us to address, please write me here or on Signal.

Events are moving swiftly. It's in everyone's interests to get questions answered and take

action to make sure we can communicate effectively if things get rough.

Look for a reminder email early next week with your webinar invite and link…

Knowledge Series Webinar – *Thursday, 16-Nov 2023*

Session #1 *(US -> Central/Sth American timezones)*

Date/Time Thursday 16th November, 3pm – EDT US (New York)

https://talk.brave.com/Mb2YGmLiBnu0t4iE_Py84tyWBz5dpDnAb5yCd5k_0Lk

Session #2 *(ANZ -> UK timezones)*

Date/Time Thursday November 17th, 9am GMT (London)

https://talk.brave.com/Mb2YGmLiBnu0t4iE_Py84tyWBz5dpDnAb5yCd5k_0Lk

Best regards
